Partenkirchen GmbH
Auenstraße 6
82467 Garmisch-Partenkirchen

Dear colleagues,

endo-update 2019 is going to be a very special event. The meeting starts on Thursday with the very popular endo-update lectures, with interesting and unusual clinical cases and with the interesting new concept of “endo-active” workshops. In addition two satellite symposia, one on hygiene in endoscopy and one on innovative technics in endoscopy are planned on Thursday evening and on Friday early morning.

On Friday the live endoscopy transmission from the University Clinic Augsburg and the Academic teaching clinic in Garmisch-Partenkirchen will take center stage. On Friday evening we offer again interesting workshops on technical and latest problems in endoscopic practice.

On Saturday we will present a concise overview on the endoscopic highlight from the live transmission as well as the histopathological results of the presented cases. They will be embedded into the Falk-Gastroforum with a broad spectrum of gastroenterological topics.

We are convinced, that we can inspire you with this appealing program on gastrointestinal endoscopy and we would be very happy if you would join us for our endo-update meeting 2019 and the integrated Falk Gastroforum.

Looking forward to seeing you

Yours

Helmut Messmann

Hans-Dieter Allescher

Thursday, November 28, 2019

- reimbursement in endoscopy
- endo-update lectures
- endo-topic lecture: IT and robotic in endoscopy
- satellite symposia: hygiene in endoscopy
- endo active workshops
 - CIRS in endoscopy
 - management of endoscopic material
 - endoscopic FNA and resections: Tips and tricks from the pathologists
 - practical and legal aspects in sedation and informed consent

Friday, November 29, 2019

- satellite symposia: innovative technics in endoscopy
- live endoscopy sessions with cases from Augsburg and Garmisch-Partenkirchen
- endo-active workshops
 - difficult access to the biliary system with naïve papilla
 - management of recurrent polyps in the colon
 - tips and tricks in EUS interventions
 - endoscopic emergencies
 - hygiene in endoscopy

Saturday, November 30, 2019

endoscopic highlights of the live sessions

Falk-Gastroforum:

- gastrointestinal oncology
- individualized tumor therapy
- screening colonoscopy
- IBS
- infections and microbiome
- helicobacter pylori
- eosinophilic esophagitis
- NASH
- IgG4-associated disorders
- highlights from the DGVS meeting
